

Adeen Shahzad

AI & Security Automation Engineer

Islamabad, Pakistan · anonaura.66@gmail.com

[LinkedIn](#) · [GitHub](#)

Summary

Cybersecurity undergraduate focused on AI-assisted security engineering, automation, threat detection, and practical systems development. Builds Python security services that combine anomaly detection, threat intelligence, dynamic trust decisions, automated enforcement, compliance monitoring, and real-time dashboards.

Selected Project

SentinelForge AI Security Automation Platform

- Built an integrated five-module platform covering multi-source log ingestion, schema normalization, VirusTotal/AbuseIPDB/OTX-compatible threat-intelligence enrichment, TTL caching, Isolation Forest anomaly detection, supervised classification, and confidence-based SOAR playbooks.
- Implemented analyst-in-the-loop case management, append-only audit evidence, safe offline fallback, reproducible model training, and a Streamlit/Plotly SOC dashboard with interactive drill-down.
- Designed production scalability and security controls including Kafka, PostgreSQL/TimescaleDB, Redis, OIDC/RBAC, TLS, secrets management, signed models, and non-destructive response gates.

Technical Skills

Programming: Python, JavaScript, TypeScript, C++, Bash, SQL, Regex

Security: SOC/CTI, network security, OSINT, malware analysis, digital forensics, secure development, OWASP, MITRE ATT&CK, NIST

AI & Automation: scikit-learn, Isolation Forest, Random Forest, feature engineering, SOAR, local LLM workflows, Docker Compose

Web & Backend: Flask, FastAPI, React, Vite, Tailwind, REST APIs, WebSockets, PostgreSQL, MySQL, SQLite, JWT, RBAC, OAuth

Tools: Kali Linux, Ubuntu, Wireshark, Burp Suite, Nmap, YARA, Metasploit, Hashcat, Git/GitHub

Experience

AI, Automation & Security Engineering Intern — THE ARZENS · Jul 2026–Present

Red Team Intern — Cyberster · Jun 2026–Present

SOC Analyst Intern — Tech Biz Security · Aug 2026–Present

Ethical Hacking Intern — Tech Biz Security · Jul 2026–Aug 2026

DevOps / Web Development Intern — TechSkillHub · Aug 2026–Present

Web Development Intern — Sgrock IT Solutions · Aug 2026–Present

Education

B.S. Cybersecurity — Air University, Islamabad · 2024–Present

Intermediate in Computer Science — HITEC School and College for Girls · 2022–2024

Certifications & Achievements

ISO/IEC 27001:2022 Associate · Forge Cybersecurity · SOC Foundations · Critical Infrastructure Protection · Cyber Threat Intelligence 101 · Top 10 in RDX CTF and AirRange CTF · Top 50 in NUST Hackathon CTF
